

# 中国测绘与地理信息产业单位名录

## Directory of Chinese Enterprises in Surveying, Mapping and Geomatics

China TopRS Technology Co., Ltd.  
中测新图（北京）遥感技术有限责任公司

China TopRS Technology Co., Ltd. (TOPRS) is a high-tech enterprise specialized in land and resources remote sensing, new technical aerial remote sensing system, low-altitude remote sensing mapping techniques, 3D geo-spatial information system development and integration of aerial photography and remote sensing mapping engineering services.

TOPRS has independently developed "TOPDC-4 large-format digital aerial photographic camera system" integrating with large-format aerial digital camera, aerial flight mission management and control system, automatic stable platform, aerial mission planning and precision design software, digital aerial quality inspection software and mosaic pre-processing software. We have independent products of "TOPLARS low altitude digital remote sensing system" consisting of light aircraft remote sensing system and unmanned aerial vehicle photographic system. Both of them realized the industrialization and engineering applications.

"TOPWORLD three-dimensional geo-spatial information service system" based on network and images has been widely used in disaster prevention, emergency, land management, urban planning, environmental monitoring, water conservancy, transportation, military application and other fields.

TOPRS built a base for aerospace remote sensing data processing, which achieved a diverse, multi-scale, multi-sensor, large-scale image data processing.

TOPRS persists in independent innovation and international cooperation, to promote the progress of remote sensing technology and serve national economic construction.

中测新图（北京）遥感技术有限责任公司是集国土资源遥感、航空遥感新技术体系、低空遥感测绘技术及三维地理空间信息系统技术研发，航空摄影和遥感测绘工程服务为一体的高新技术企业。

公司自主研发了由大幅面航空数码摄像机、航摄任务飞行管理与控制系统、全自动稳定平台、航摄任务规划与精确设计软件、数字航摄质量检查软件、拼接预处理软件组成的“TOPDC-4大幅面数码航摄系统”，由超轻型飞机数码遥感系统、无人机航摄系统组成的“低空数码遥感系统”，并实现了产业化和工程化应用。

公司研发的基于影像的网络化三维地理信息服务系统——“神州遨游”，广泛应用于抗灾救灾、土地管理、城镇规划、环境监测、水利、交通、国防等领域。

公司构建的航空航天遥感数据处理基地，实现了多元、多尺度、多传感器影像数据规模化处理。

公司坚持自主创新与国际合作并举，推动遥感技术的进步，服务于国家经济建设。

### CONTACT/联系方式

Add/地址: No.16 Beitaping Road, Haidian District, Beijing, China

北京市海淀区北太平路16号

Code/邮编: 100039

Tel/电话: +86-10-88217822

Fax/传真: +86-10-68160588
